## ATLONA TECHNOLOGIES ANNOUNCES THE RELEASE OF THE 8X8 COMPOSITE AUDIO/VIDEO OR COMPONENT MATRIX SWITCH, THE AT-AV0808N

Atlona Technologies, solutions based manufacturer of Audio Video products, announces the release of the new 8x8 Composite Audio/Video or Component Matrix Switch, the AT-AV0808N

Atlona Technologies, solutions based manufacturer of Audio Video products, has been aggressively expanding their matrix switcher line to accommodate older analog devices still used today. Analog video routing has never been as easy or cost effective with the newest such matrix switcher, the AT-AV0808N. Atlona has quickly become a staple in the video accessory market due to their vast line of solutions. While many manufacturers look past Composite, calling it a legacy format, Atlona prides themselves on consistently providing to those still using Composite or Component as their main video connection type.

Atlona's AT-AV0808N is a true Matrix Switcher boasting 8 inputs and 8 outputs with Composite Video and Stereo Audio, and has been designed to allow the capability of being used for HDTV Component video as well. This unit allows switching at a price point lower than most competitors in the Audio Video market. Because it is a matrix switch, any of the eight Composite inputs can be routed to any of the eight Composite outputs independently; or the same input can be routed to all outputs simultaneously, or any other combination. Featuring a number of control options including manual, Infrared Remote and RS232, this Matrix Switcher is compatible with every major third party control system such as AMX, Crestron, RTI, and Control 4. With quick and easy installation, this unit is perfect for any application connecting multiple legacy devices such as (VCRs, Camcorders, Video Game Consoles, DVDs, Satellite Receivers, Set Top Boxes, etc) to multiple of legacy displays such as (HDTV, LCDs, Plasma Monitors, Video Projectors) and more.

Atlona's AT-AV0808N is officially available with an MSRP of \$699.00
