ATLONA TECHNOLOGIES EXTENDS THEIR PRODUCT LINE WITH NEW 8X2 PROFESSIONAL VIDEO SCALER/SWITCHER

Atlona Technologies, solution based manufacturer of AV accessories, has officially released their newest Professional 8x2 Video Scaler/Switcher.

Atlona Technologies has added to their extensive scaler line once again with one of the most unique to date, the AT-PRO82. This new professional video scaler designed especially for the educational market boasts eight inputs and 2 outputs. This device is designed to work not only as a scaler, but also as a switcher for multiple Audio/Video sources and VGA displays. This Atlona unit is capable of switching 2 x Composite Video, 2 x S-Video, 2 x Component and 2 x VGA, all with Stereo Audio signals going out to 2 x VGA with Stereo Audio Outputs. This gives the AT-PRO82 the ability to switch between sources and outputs to two mirrored displays. This scaler is capable of outputting a wide range of resolutions that will easily match the native resolution of any display up to 1080p or 1920x1200.

The AT-PRO82 has the capability of 50Hz/60Hz conversion allowing users who have American televisions in Europe, or the other way around, to view content on their display regardless of broadcast format (PAL/NTSC). With manual, RS232, IR Remote control options, as well as a comprehensive on screen OSD menu, users are able to select a variety of desired output resolutions and enable them to make necessary adjustments for the optimal picture quality.

Atlona's AT-PRO82 Scaler/Switcher is specifically designed for all Video equipment and applications that using Multiple Video formats and signals such as Cable and Satellite receivers, VCRs, DVD Players, Set Top Boxes...etc. This unit is perfect for in store video displays, education and worship facility applications, high quality digital signage, as well as many other Audio Video needs.

Atlona's AT-PRO82 is available now with an MSRP of \$849.00
